Request For Unreasonable Hardship 2007 California Building Code, Section 1134B.2.1, Exception 1.

ACCESSIBILITY REQUIREMENT

An unreasonable hardship exists where the cost of providing an accessible entrance, path of travel, sanitary facilities, public phones, drinking fountains, etc. exceeds 20 percent of the cost of the project *without* these features.

When the total construction cost of alterations, structural repair or additions does not exceed a valuation threshold of \$119,958.65, and the Building Official finds that compliance with the code creates an unreasonable hardship, the actual work of the project must comply with current code and an amount equal to at least 20% of the cost of the project must be spent to improve required accessibility features that are not in compliance with the current code.

In choosing which accessible elements to provide, priority should be given to those elements that will provide the greatest access, by providing code compliance in the following order:

1. An accessible primary entrance to the space being altered.
2. An accessible path of travel to the altered area, from restrooms serving the area and from an accessible parking stall.
3. At least one accessible restroom for each sex that serves the area of alteration.
4. Accessible public telephones when provided.
5. Accessible drinking fountains when provided.
6. When possible, additional accessible elements such as storage and alarms.

If you want to request an unreasonable hardship, you must complete the attached worksheet, and prepare a site and floor plan of the existing and proposed accessibility improvements. This information must be submitted to the Building Division in duplicate, prior to processing of your permit application. One copy of the approval or denial will be returned to the applicant of the unreasonable hardship request.
