Fences Not More Than Six Feet In Height

A site plan showing compliance with the Zoning Code requirements (height and setbacks) will be required before a Zoning Use Permit is issued and the Building Division can state that no building permit is required. Height and setback requirement information may be obtained from the Planning Division.

No-Fee Zoning Use Permit:

Applicant must provide two (2) copies of a site plan (plot plan) showing the location, height, and description of the fence.

The Building Division will take the drawings to the Planning Division for approval. The Planner will stamp and sign both copies of the drawings.

Once Planning approval is obtained, the Building Division will stamp the drawings, "NO BUILDING PERMIT REQUIRED". One copy will be given to the applicant and the second filed for Building Division records.
