**Perris AYSO Receives Sponsorship Donation from Local Developer**

PERRIS, Calif. (March 6, 2020) — The City of Perris participated in the presentation of a check to the Perris AYSO chapter from IDL Logistics at Morgan Park on Thursday, March 5, 2020.

IDI Logistics, a local developer in the Perris community, made a sponsorship donation of \$5,000 to the Perris AYSO - REGION 544 soccer league which helps keep the league moving forward. League Commissioner Andy Echeverry, an AYSO volunteer with the responsibility and the authority to manage the day-to-day business of the Region, received the check on behalf of the league.

“It’s amazing. This is what we are here for: for the kids,” said AYSO league commissioner Andy Echeverry. “We have over 700 kids and we want to grow and hire some coaches to help them out, so this is going to go a long way.”

Perris Mayor Pro Tem Rita Rogers was in attendance and was happy to see the donation made to help keep the players on the field.

“I feel great about this. For all my years on the council, I have worked hard to make sure developers help out our youth sports, so this is really a nice night,” said Rogers. “It builds community and helps out our youth and I will continue working on some more of these things that will hopefully come to fruition soon.

Perris Council Member Malcolm Corona was also in attendance and talked about how sponsorship donations like this help give back to the hard-working community of Perris.

“This is great because it keeps the kids program moving forward. We are getting developers into Perris who are contributing back to our community,” said Corona. “This helps lower the cost of the kid’s leagues, helps with the kid’s parents and makes this easier for our hard-working families in our community.”

IDI Logistics is a leading developer and manager of logistics real estate in the U.S. This fully integrated logistics platform has a long track record of speculative development, build-to-suits and value-add acquisitions. In its 30-year history, IDI Logistics has developed and acquired
