Bid Date: December 15, 2022  
Time: 2:00 p.m.  
Place: Active Bidder Website  
Project: Old Nuevo Road Sidewalk and Streetlights

**TO THE CITY OF PERRIS**, hereinafter called the Agency, the undersigned, as Bidder, declares that he has carefully examined the location of the project, that he has examined the plans and specifications and addenda (if any), and has read the Information for Bidders, and hereby proposes and agrees, if the Bid is bid is accepted, to furnish all materials to do all work required to complete the said plans and specifications in the time and manner herein prescribed for the Bid Price set forth in the Schedule of Bid Items.

Proposal of All American Asphalt, hereinafter called "Bidder", organized and existing under the laws of the \_\_\_\_\_ State of California, doing business as A Corporation. Insert "a corporation", "a partnership", "a joint venture", or "an individual", as applicable.

No separate payment will be made for any item that is not specifically set forth in the Schedule of Bid Items. All costs, therefore, shall be included in the prices named in the Schedule of Bid Items for the various appurtenant items of work. In case of discrepancy between words and figures, words shall prevail.

By submission of this Bid, each Bidder certifies, and in the case of a joint Bid, each party thereto certifies, as to his own organization that this Bid has been arrived at independently, without consultation, communication, or agreement as to any matter relating to this Bid with any other Bidder or with any competitor.

Since time is of the essence, Bidder hereby agrees to commence work under this Contract on February 13, 2023, and to fully complete all work on or before the 60th working day after receiving the Notice to Proceed. Bidder agrees with the Agency that if the project is not fully completed within said time, he shall pay as liquidated damages the sum of \$1,000.00 (one thousand dollars) for each calendar day thereafter until such completion and that this amount shall be presumed to be the amount of damages sustained by Agency in the event of such a breach by Bidder, as it would be impracticable or extremely difficult to fix the actual damage.

The undersigned, as Bidder, proposes and agrees, if the proposal is accepted, that he will execute a Contract with the Agency in the form set forth in the Contract Documents and that he will accept in full payment thereof the following prices as set forth in Bid Schedules.

Quantities above are for the purpose of comparison only and payments will be made on the basis of actual measurement of work completed. Where discrepancies occur between words and figures, the words shall govern. Upon receipt of the Notice of Award, Contractor shall submit to the Agency for approval, a detailed breakdown of the Contractor's cost estimate into the various elements of materials and construction operations. When approved, this breakdown will serve as a basis for the Agency to determine partial payments.

If awarded this contract, the Bidder agrees to execute the Contract and submit the Labor and Materials Payment Bond, Contract Performance Bond, and Insurance Certificates on the required forms within ten (10) calendar days from the date of the Notice of Award. The Notice of Award shall be accompanied by the necessary Contract, Bond, and Insurance Certificate forms. In case of failure of the Bidder to execute the Contract, the Agency may at his option consider the Bidder in default, in which case the Bid Bond, or any deposit in lieu thereof, accompanying the proposal shall become the property of the Agency. Forfeiture of the Bid Bond, or any deposit in lieu thereof, does not preclude the Agency from seeking all other remedies provided by law to recover losses sustained as a result of the Contractor's failure to execute a written agreement to perform the work at his Bid Price.

The Bidder's execution on the signature portion of this proposal shall also constitute an endorsement and execution of those certifications which are a part of this Proposal.

The bidder All American Asphalt, proposed subcontractor \_\_\_\_\_, hereby certifies that he has X ~~has not~~ participated in a previous contract or subcontract subject to the equal opportunity clause, as required by Executive Orders 10925, 11114, or 11246, and that, where required, he has filed with the Joint Reporting Committee, the Director of the Office of Federal Contract Compliance, a Federal Government contracting or administering agency, or the former President's Committee on Equal Employment Opportunity, all reports due under the applicable filing requirements.

- 2) Specification section SP-4-13.00 MINOR CONCRETE has been modified to read:

This section covers the requirements for the bid items 13, 14, 15, 16, 17 and 18 and all work indicated by construction notes 7, 9, 10, 11, 25 and 26. Prior to any saw cutting and/or removals the contractor shall walk the project site with the city inspector to mark the limits of removals.

Concrete used for minor concrete items shall comply with Section 90, "Concrete" of the Caltrans Specifications and these special provisions. Any concrete accelerators used to speed construction shall be at the Contractor's expense and no additional payment will be made by the City. All concrete used for driveways and cross gutters shall be sufficiently strong to allow them to be opened to traffic within 72 hours of placement. Minor concrete items shall be constructed using a 3250 psi concrete mix.

All minor concrete items (including, but not limited to, sidewalks, cross gutters, curb and gutter, concrete facing, driveways, ribbon gutter, and under sidewalk drains) shall be built per Riverside County Improvement Standards, Standard Plans for Public Works Construction (SPPWC) except as modified herein and on the plans. All minor concrete must meet the latest ADA requirements. Minimum sidewalk thickness is a true 4.0 inches, and minimum drive approach and driveway thickness is 8.0 inches, both per Riverside County Standards. The Contractor shall refer specifically to the following standard plans of the Riverside County Transportation Department (latest edition) for further information:

- Riverside County Standard 200, "Type A-6 Curb"
- Riverside County Standard 201, "Type A-8 Curb"
- Riverside County Standard 205, "Curb and Gutter Joints"
- Riverside County Standard 207, "Residential Driveway with Sidewalk at Curb"
- Riverside County Standard 207A, "Commercial Driveway"
- Riverside County Standard 213, "Residential Driveway with Sidewalk at R/W"
- Riverside County Standard 400, "Sidewalk, Fire Hydrant, and Utility Pole Location"
- Riverside County Standard 401, "Sidewalk and Curb"
- Riverside County Standard 403, "Curb Ramp"

Handicap access ramps shall be bid per each and shall include all work from the BCR to the ECR including, but not limited to, all concrete curb and gutter, the landing behind ramps, sidewalk, scoring, grading to conform to existing area, and any and all work to make the ramp meet ADA requirements. All commercial driveways shall be paid per each and shall include truncated domes whether shown on the plans or not.

Truncated Domes Detectable Warning Surfaces shall meet all ADA requirements, and any requirements of the County of Riverside. The color shall be yellow # 33538.

If any export of material is required, Contractor shall export to external sources. If areas are encountered that the Contractor believes should be determined to be "unsuitable material", the Contractor shall notify the Engineer. If the Engineer determines that the

material is “unsuitable” it shall then be removed and disposed of and paid for as extra work.

The subgrade for all minor concrete items described in this section shall conform to requirements of section 73-1.03B of the Caltrans Specifications and these provisions. The top one (1) foot of subgrade shall be moisture-conditioned, processed, and compacted to a minimum relative compaction of 95%. Minimum relative compaction shall be 90% for sidewalk. It is critical to not damage the existing utilities during construction. To this end, the City has reviewed record drawings and have included existing available utility information on the civil plans. It should be emphasized that even though this information is being provided, it is the Contractor’s responsibility to protect the utilities during construction and to ensure that the existing utilities do not conflict with the proposed improvements. It is possible that all existing utilities may not be shown on the civil plans.

The grade tolerance for the subgrade grading plane at any point shall not vary more than 0.02’ (1/4-inch) below or 0.06’ (3/4-inch) above the grade established by the Engineer.

Payment for minor concrete items shall be per unit as defined in the bid schedule for each minor concrete item. All base underneath the minor concrete items will be included in the minor concrete bid items. Payment for minor concrete items shall include full compensation for furnishing all labor, materials, tools, equipment, and incidentals for the minor concrete items per their standards complete-in-place.
