

## IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

(The following two sentences are in Spanish relaying information on the importance of this notice. Translated to English, it would read as follows: [This notice contains important information regarding your drinking water, please read the Spanish notice if it is included. If the Spanish notice is not included, please contact the water system and ask for a copy.])

Este informe contiene información muy importante sobre su agua potable.  
Tradúzcalo o hable con alguien que lo entienda bien.

### MONITORING REQUIREMENTS NOT MET FOR North **Perris Water System**.

Our water system failed to monitor as required for drinking water standards during the past year and, therefore, was in violation of the regulations. Even though this failure was not an emergency, as our customers, you have a right to know what you should do, what happened, and what we did to correct this situation.

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. During **January - November 2022**, we failed to conduct required samples for **Total Coliform Bacteria** and therefore, cannot be sure of the quality of our drinking water during that time.

#### What should I do?

- There is nothing you need to do at this time.
- The table below lists the contaminant(s) we did not properly test for during the last year, how many samples we are required to take and how often, how many samples we took, when samples should have been taken, and the date on which follow-up samples were (or will be) taken.

Contaminant	Required Sampling Frequency	Number of Samples Taken	When All Samples Should Have Been Taken	When Samples Were or Will Be Taken
<b>Total Coliform Bacteria</b>	<b>3 Per Week January – November 2022 Total of 117 Required</b>	<b>34 Total Samples</b>	<b>January - November 2022</b>	<b>November 30<sup>th</sup>, 2022</b>

- If you have health issues concerning the consumption of this water, you may wish to consult your doctor.

### **What happened? What is being done?**

An Employee of a Contracted Service to the City of Perris did not complete all of the required samplings for the Total Coliform Bacteria Testing.

All Contracted Staff have been given further training in correct sampling responsibilities.

Correct Sampling has been established since November 30<sup>th</sup>, 2022.

For more information, please contact Bryant K. Hill at 951-657-3280 or 1015 South G St Perris 92570.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly.

### **Secondary Notification Requirements**

Upon receipt of notification from a person operating a public water system, the following notification must be given within 10 days [Health and Safety Code Section 116450(g)]:

- **SCHOOLS:** Must notify school employees, students, and parents (if the students are minors).
- **RESIDENTIAL RENTAL PROPERTY OWNERS OR MANAGERS** (including nursing homes and care facilities): Must notify tenants.
- **BUSINESS PROPERTY OWNERS, MANAGERS, OR OPERATORS:** Must notify employees of businesses located on the property.
