These areas are located to the east of Tract 30662-2, with the Neighborhood Park located on the south side and the Monument Area located on the north side of Monument Boulevard.

Non-irrigated areas are the fourth category of improvements to be maintained. The permanent landscape improvements within these areas are further identified as follows:

- Buffer areas that will serve as a fuel modification zone in times of fire, erosion control, natural drainage, and as a transition area between property lines and natural areas, bio-swales, debris basins and detention basins. The buffer area will be planted with drought-resistant native shrubs, ground cover, and grass mix.

The buffer areas are further identified as follows: 1) an approximate 80'-wide strip, excluding debris basins, within Benefit Zone 53 and along the southern boundary line of Lots 47 to 57, Tract 30662, Lots 95 to 124, Tract 30662-2, and, the Neighborhood Park and, 2) irregular buffer areas along the west boundary line of Lots 1 through 15 and 108 through 122, Tract 30662-1, within the East Debris Basin and between the East Bio-swale and the East Detention Basin.

These corridors will be planted with drought resistant native grass mix and will serve as access ways, erosion control and drainage easements.
- South Natural Area between the 80'-strip buffer area and the south boundary line of Benefit Zone 53. It is anticipated that maintenance activities in the natural area will be limited to gathering debris and trash. However, pruning may be necessary to reduce fire hazards and the planting of drought-resistant native shrubs, ground cover, and grass mix may be necessary to facilitate drainage and prevent erosion.

Drainage facilities are the fifth category of improvements to be maintained. These facilities are included herein as opposed to Benefit Zone 25, Flood Control Maintenance District No. 1 due to the transition of the non-irrigated areas into these facilities and the similarity of landscaping and level of maintenance. It is also anticipated that these facilities will be included in the same maintenance contracts with the non-irrigated areas.

The permanent landscape improvements within the drainage facilities will be maintained, and the facilities are further identified as follows:

- Two detention basins, with the East Detention Basin located between Monument Boulevard and the terminus of Ethanac Road and the West Detention Basin is located along the west boundary line of Lots 7 through 18, Tract 30662. Part 3
Assessment Roll

Landscape Maintenance District No. 1
City of Perris

I do hereby assess and apportion the total amount of the costs and expenses upon the several parcels of land within said Maintenance District liable therefore and benefited thereby, in proportion to the estimated benefits that each parcel receives, respectively, from said maintained works of improvement and appurtenances as established in the formation of, and subsequent annexations to, said Maintenance District.

All of the parcels within Landscape Maintenance District No. 1 are located within the City of Perris and are approved developments or are in the final stages of obtaining approval for a proposed development. The maintenance to be performed consists of the furnishing of services and materials for the ordinary and usual maintenance of public landscaping. All improvements are located within the road right-of-way or easements granted to the City of Perris.

The landscape improvements to be maintained are, or were, required for the approval of, and as a consequence of, new development, and thus benefit the respective development within each of the annexations/benefit zones to the district. The method of assessment is based on units, with a residential dwelling or condominium equal to one benefit unit. Commercial properties were assessed benefit units based on each parcel's share of that benefit zone's total acreage.

Assessments were not levied in those Benefit Zones where costs were not to be incurred by the district. Costs were not incurred in Benefit Zones where the improvements are not in place or currently not requiring any maintenance effort by the District and where the improvements are to be maintained by the owner/developer.

The proposed assessment, number of benefit units and the assessment per benefit unit, by Benefit Zone, are listed on the following page.

For the specific assessment on each parcel, reference is made to the Assessment Roll on file with the City Clerk, which is made a part of this Report to the same extent as if attached hereto.
