## City Has App for Reporting Problems

Perris residents who spot graffiti, potholes, broken street lights, trash on the street or vacant lots and other issues of concern can report problems at the touch of their fingers. With the “Perris user friendly mobile app,” residents can submit any issues on the go, even acting as “extra eyes on the street” to report and reduce illegal activity. The app can be installed on mobile devices and includes the options of uploading photos and pinpointing the exact locations of potential problems based on a person’s GPS.

The app can be easily downloaded here for [Apple](#) and [Android](#) devices.

Highlights of the app include:

- Downloadable and easy to install on any Android or Apple Device
- Ability to GEO-locate and photograph areas of concern/problems
- Automated case routing
- 24/7, real-time status updates for residents
